The Trustees of The Solomon R. Guggenheim Foundation are indebted to the Metropolitan Museum of Art and the American Museum of Natural History for their collaboration in loaning the HUASTEPEC STONE FIGURE from Tapico region, Mexico, which is exhibited outside the Usonian House.

Also to Mr. John Wise for his generous loan of the MAYAN SCULPTURE OF MALE HEAD in the sitting room of the Usonian House.

The Radiant Glass panels used to heat this exhibit are courtesy of the CONTINENTAL RADIANT HEATING CORPORATION, 1 East 35th Street, New York 16, N. Y.

These GLASSHEAT panels are constructed of specially tempered glass fused in an aluminum grid. The infra red rays they give off are protected by means of metal reflectors in back of the panels.
